Professional Summary

With a half-decade of IT experience, I have mastered the end-to-end engineering flow: from development of software and deployment through DevOps practices on cloud and on-premises. This three-step progression reflects my expertise in building, deploying, and scaling applications seamlessly across environments.

Technical Proficiency:

- **Development:** HTML | CSS | | MySQL | Django | Django REST Framework | Django-ORM | PostgreSQL | Web Server (Nginx) | Git | GitHub

- **DevOps:** Linux | Docker | Bash Scripting

- **Cloud:** AWS (IAM | EC2 | EKS | VPC | S3 | RDS) Hostinger cPanel

WORK EXPERIENCE

Role: Python developer
Company: Digital Gravity (Dubai onside)
- Developed and deployed the backend of a movie streaming application using Django and PostgreSQL on a Debian-based Linux server, ensuring secure and efficient performance.
  Designed a scalable RESTful API using Django REST Framework

From: University Of Peshawar, Peshawar, Pakistan

WordPress
From: DigiSkills

SEO
From: DigiSkills

Data Science (IBM)
From: Coursera

Data Analyst (IBM)
From: Course

Dear Hiring Manager,

I am excited to apply for the Python Django Developer. With a strong background in web development using Django, REST Framework, and WordPress, I bring proven experience in building scalable and efficient applications. I have worked both **onsite in Dubai** and **remotely with clients in the USA**, which has given me exposure to diverse projects, international standards, and cross-cultural collaboration.

I am confident that my global experience and technical expertise will allow me to contribute effectively to Grayphite's success. I look forward to the opportunity to discuss how I can add value to your team.

Thank you for your time and consideration.

Sincerely,
Safir Ahmad
